ABOUT US

Modern Flames was established in 2008 and has quickly become the innovative leader in contemporary electric fireplace design and technology. After pioneering the linear electric fireplace throughout North America, Modern Flames’ brand has skyrocketed with many firsts to market which include; the first linear recessed electric fireplace, the first fully built-in electric fireplace, the first outdoor electric and now the first steam electric fireplace. Modern Flames’ products have gained notoriety with architects, designers, builders and homeowners for its unbelievable life-like flame appearance, ease of installation and affordable cost to the builder compared to wood and gas. With global movement into greener building and high efficiency products, Modern Flames’ new FusionFire™ technology allows consumers to achieve the look of a fireplace without sacrificing the realism of a real fire. With a new corporate headquarters and expanded warehouse in Phoenix, Arizona along with it’s new steam technology, Modern Flames continues to be a leader in the electric fireplace industry. Modern Flames is innovating the industry standards of tomorrow.

Technical Specs

TOUCH SCREEN TECHNOLOGY
A user-friendly series of touch controls operate power, heat on/off and light intensity. Press light intensity for 5 sec. and the flame changes from orange to blue. The up/down arrows and digital readout indicate and control the temperature settings. All touch controls fade to black after a sec. With the metal face upgrades you will no longer be able to have the ability to operate the touchscreen on the face of the fireplace. A touchscreen can be mounted in the wall within 3’ of the fireplace.

NEW REMOTE CONTROL
Separate controls for on/off, variable heat and variable flame.

UPGRADE OPTION - HALO BACKLIGHT KIT

Optional led color RGB Halo Backlight - Includes Upgraded Remote

Touchscreen: Pink Blue Aqua Turquoise Green Lime Yellow Red

Modern Flames Linear Spectrum Series Built-in Flush Mount Electric Fireplace brings the flame versatility and size options. Our award winning flame appearance now features 12 different flame color combinations to choose from. A gray back screen allows the colors to shimmer and shine, dancing off multicolor glacier diamond glass, creating a crisp, clean flame and contemporary look. Add our realistic Driftwood Logs for a more traditional look. The Spectrum Linear Series is available in 2 different widths: 50" or 74" models. A thermostat, touch control and remote completes this innovative series.
SPECTRUM LINEAR SERIES
