

MODERN  FLAMES[®]
ELECTRIC FIREPLACES

Orion[®] V2
LCD Electric Fireplace

Experience the Next Evolution in **Fireplace Technology**

Three Models. One Elevated Flame Experience.

The Orion® Series delivers flexible installation options with consistent, high-performance features across the entire line, allowing you to choose the right model for your specific application without compromising flame quality or design.

Orion® V2 Traditional

Sizes: 26" • 30" • 36" • 42" • 54"

Orion Traditional

Slides into an existing fireplace opening or installs as a built-in with a clean-face kit for a minimal, streamlined finish.

Orion Multi

Clean-face, single-sided design configurable as a left corner, right corner, or bay for versatile placement.

Orion® V2 Multi

Sizes: 52" • 60" • 76" • 100" • 120"

Orion® V2 Slim

Sizes: 52" • 60" • 76" • 100"

Orion Slim

Engineered for 2x6 walls, slides in after finished wall materials and includes a built-in clean-face kit for a minimal frame option.

Refined Flame Styles & Expanded Flame Library

Deep, multidimensional flames with new styles continually being added to the flame library available in the new Modern Flames + app.

Adaptive Brightness for the Perfect Ambiance

Orion V2 automatically adjusts flame brightness to match your room's lighting, ensuring the perfect look at any time of day.

Upgraded LCD Displays for Superior Color

Orion V2 features a next-generation LCD display delivering sharper contrast and richer colors.

A Customized Experience for Any Style

Create conversation with technology you have complete control over. With the new Modern Flames + App and premium remote, customization is right at your fingertips. An ultrarealistic log set crafted from our TruWood™ logs and active ember bed create a truly authentic hearth experience.

- **Modern Flames + App with Advanced Customization**

The New Modern Flames + app unlocks full control over flame styles, brightness, color, speed, ember bed, audio, and more.

- **Over-the-Air Flame Updates**

New flame styles are delivered through the Modern Flames + app, giving you fresh designs and future-ready functionality long after your initial purchase.

- **Highly Realistic Lit Log Set**

Crafted from TruWood™ logs, the Orion V2 log set offers stunning authenticity. The logs are lit from within for a natural-looking depth and warmth.

- **Active Ember Bed**

An active ember bed that adds movement, texture, and vivid color beneath the logs, enhancing authenticity with a glowing ember bed.

- **Premium Remote Control**

Orion V2 includes a sophisticated, ergonomically designed remote for instant control of flames, lighting, heat, and audio.

Engineered for Entertainment

- **Premium, Custom Modern Flames Speakers**

Built-in speakers custom-engineered for the Orion v2 transform your fireplace into a fully immersive sound experience.

- **Bluetooth Audio Streaming**

Stream music, podcasts, or ambient noise directly through custom premium speakers via Bluetooth connectivity.

- **Three Ambient Crackling Sound Options**

Choose the perfect environment with three ultra-realistic crackling soundscapes. Each is professionally engineered to recreate the warmth and sounds of a natural wood-burning fire.

- **Engineered & Designed in Phoenix, Arizona**

Every Orion V2 is thoughtfully crafted by Modern Flames' in-house engineering team in Phoenix, AZ, ensuring exceptional build quality, advanced performance, and meticulous attention to detail.
